- Nossos produtos são projetados e fabricados para substituir integralmente o equipamento original, dispensando adaptações. (sistema "Plug and play")
- Todas as funções de comutação mecânica e elétrica são testadas ao final do processo produtivo.
- Produzidos com índice de cobre equiparado ao produto original, o que proporciona condutividade elétrica apropriada, livre de problemas de resistividade.
- *Our products are designed and manufactured to fully replace the original equipment, without the need for any adaptation (with plug-and-play functionality).*
- *All mechanical and electrical switching functions are tested at the end of the production process.*
- *Produced with a copper level equivalent to the original product, which provides appropriate electrical conductivity, free from resistivity issues.*
